

Calculating Non-Federal Share

TOTAL PROJECT COST = The Whole Pie

Non-Federal Share = 1/5 (one-fifth) of the Total Project Cost
In other words, Non-Federal Share = 20% of Total Project Cost

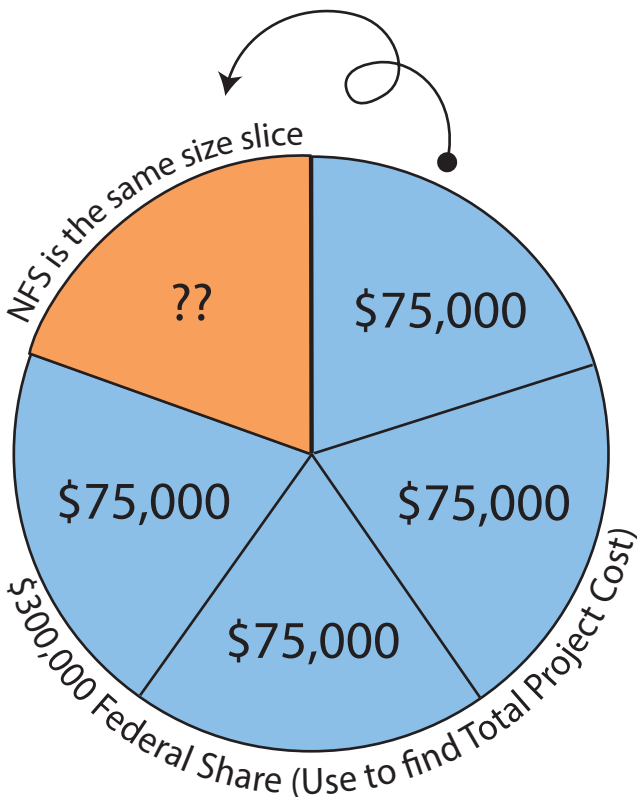

Federal Share = 4/5 (four-fifths) of the Total Project Cost
In other words, Federal Share = 80% of Total Project Cost

Calculation Method 1:

(Step 1)	
Federal Request	\$300,000
÷ 80%	÷ 0.80
<hr/>	
Total Project Cost	\$375,000

(Step 2)	
Total Project Cost	\$375,000
- Federal Request	- 300,000
<hr/>	
Non-Federal Share	\$ 75,000

(Step 3)	
Total Project Cost	\$375,000
x 20%	x 0.20
<hr/>	
Non-Federal Share	\$ 75,000

Non-Federal Share = 1/4 (one-fourth) of the Federal Request
In other words, Non-Federal Share = the same size slice of pie!

Calculation Method 2:

(Step 1)	
Federal Request	\$300,000
x 25% (or ÷ 4 pieces)	x 0.25 (or ÷ 4)
<hr/>	
Non-Federal Share	\$ 75,000

(Step 2)	
Non-Federal Share	\$ 75,000
+ Federal Request	+ 300,000
<hr/>	
Total Project Cost	\$375,000

(Step 3)	
Total Project Cost	\$375,000
x 20%	x 0.20
<hr/>	
Non-Federal Share	\$ 75,000
